

A.C.L. EXPERIENCES

Abnormal-lifestyle & Correctional Lived Experiences

Summer 2026 Youth Pledge Movement - Indiana Goal: 5,000 Youth | Long-Term National Goal: 100,000 Youth

Youth Prevention & Pathway Pledge

Real-life insight - not theory. Prevention is power. Accountability protects purpose.

This certifies that

Participant Name

has participated in an A.C.L. EXPERIENCES pledge moment, prevention session, community outreach workshop, school activity, youth leadership activity, family conversation, or partner-led presentation and recognizes the meaning of the abnormal-lifestyle: a pattern of choices, influences, substance use, conflict, and harmful thinking that can lead to pain, lost freedom, violence, addiction, incarceration, or missed purpose.

Whether I am changing direction from that path, staying away from that path, or standing as a voice of prevention for others, I pledge to choose accountability, self-respect, safe decisions, conflict resolution, substance-free thinking, and a future that protects my life, my family, my freedom, and my community.

I choose prevention, purpose, and a better path - for myself, my loved ones, and my future.

I dedicate this pledge to:

A loved one, family member, mentor, community, or myself
